Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

We already pay so many taxes. I can hardly believe the taxes and fees on our residential phone bill. I use my cellular phone for local calls, and in fact, the reason I use tracfone is to limit my expense in this area. Another fee or tax for someone who rarely uses the phone for long distance calls is unfair. We are taxes enough. Please give us a break.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Gary & Christine Hibberd
